3 Negotiated with M/s. Decibels Lab. Pvt. Ltd. towards establishing Centre of Competence (COC) in Electric Vehicle Technology at KLS GIT (Amount involved: ₹32,80,000/- + GST)

Preamble: As per BOM Res. No. 05 dated 18.11.2023, BOM has authorized Governing Council-KLS GIT to negotiate with the agencies (M/s. Decibels Lab. Pvt. Ltd., Bangalore) and submit an evaluation report to BOM for final approval.

Further, as per GCR No. 08 dated 28.11.2023, GC opined to call the representatives of M/s. Decibels Lab. Pvt. Ltd. Bangalore for face-to-face discussion and negotiation during the upcoming GC meeting.

Discussion & Decision:

GC interacted with the representatives of M/s. Decibel Lab. Pvt Ltd.

GC note the following based on discussion with representatives of M/s. Decibel Lab Pvt. Ltd.:

- Courses that can be offered due to establishment of the COC will allow students from KLS GIT to be considered for opportunities in the Electric Vehicle (EV) sector that is growing at attractive rates.
- EV makers in the immediate region can utilize these facilities, at a cost, for testing of various components of these vehicles in the design phase.
- Courses/Seminars for staff at existing EV companies, at a cost, can be offered by KLS GIT in conjunction with Decibel Lab Pvt. Ltd.

The details of the price quoted and negotiated by M/s. Decibels Lab. Pvt. Ltd. Bangalore are as under:

Price Quoted (exclusive of taxes)	Price Negotiated (exclusive of taxes)
₹ 32,80,000/-	₹ 29,50,000/-

60% of the negotiated amount along with taxes has to be paid along with Purchase order.

Matter is referred to KLS BOM for its consideration and approval.

12 To inform GC about the Contractual appointment of faculty in Aeronautical Engg. Dept. of KLS GIT

Preamble: As per GCR No. 12 dated 07.11.2023, GC resolves to:

- *Constitute a committee comprising of Principal, Dean Admin, HOD-Aeronautical & HOD-Mechanical to interview candidates, i. Mr. M. Shakti Prasad & ii. Mr. Shyam Sundar on contractual basis for a period of six months at a consolidated salary of ₹30,000/- per month. The committee is requested to submit its report to GC, after interviewing the candidates. If the candidates are found suitable, they can be considered for contractual recruitment for a period of six months at a salary not exceeding ₹30,000/- per month.*

Accordingly, interviews were conducted and the report would be placed in the meeting.

The report of the committee is as under:

Sl. No.	Name	Mr. M. Shakthi Prasad
1	Qualification	B.E. in Mechanical Engineering, M.Tech. in Aeronautical Engineering
	Work Experience	14 years
	Specialization field	Aircraft Structures
	Salary Expectation	₹ 56,000/-pm
	Expected date of Joining	December 1 st week
	Ph.D. Status	Pursuing at Hindustan institute of technology and science, Chennai
2	Name	Mr. Shyam Sundar Thakur
	Qualification	B.Tech. in Aeronautical Engineering, M.Tech. in Aerospace Propulsion Technology
	Work Experience	1 Year
	Specialization field	Propulsion
	Salary Expectation	₹ 40,000/- pm + Accommodation
	Expected date of Joining	December 1 st week
	Ph.D. Status	Not Registered

Based on their performance in interview it is seen that technically they are fit in their respective fields and can handle the subjects of their specialization. And the degrees awarded to them will suffice the need of UGC and AICTE norms. Hence, the committee recommends both of them for the post of assistant professor in the department of Aeronautical Engineering on contractual basis till an advertisement rolls out for the recruitment from the institute.

Further, as per GCR No. 12 dated 28.11.2023, GC authorized Principal-KLS to negotiate salary with the candidates and place the details in

17 Considered the proposal regarding SEED money to carry out research and enhance teaching-learning by upgrading Additive Manufacturing Laboratory submitted Dean Academics – Development

Preamble: Dean Academics – Development submitted proposal requesting for SEED Money to carry out research and enhance teaching-learning by upgrading Additive Manufacturing Laboratory . It is stated that, we have constantly been striving at the Institute to conduct research that matches global standards in the area of Additive Manufacturing. With the available resources, we could produce world-class research papers in Q1 Q2 journals, secure awards in national/international competitions, generate revenues by providing consultancies to the nearby MSME's and also conduct regular workshops/training to the college/industrial personnel's in the past few years.

To further accelerate our efforts and enhance the outcome, we need to upgrade our results delivering research laboratory (Additive Manufacturing and Reverse Engineering Laboratory) with the latest facilities and equipment's.

We realized that there is a provision in the Institute's R&D policy to allocate SEED money (up to ₹ 10 lakhs) for such initiatives. Hence, we request you to grant us SEED money for ₹ 2.90 lakhs to procure an Ultrasonic Welding machine along with accessories for welding Additively Manufactured parts. This machine will be helpful in the following aspects

- i. To carry out research related project works for our final year undergraduate students
- ii. To demonstrate welding of plastic/3D printed polymers techniques to under graduate students in Manufacturing lab.
- iii. Ph.D. research work can also be taken up for the upcoming registered students
- iv. As discussed with industries like AEQUS Toy unit, Accu square etc. this equipment can be utilized to carry out live industry projects & provide solutions

Considering these aspects, we request you to kindly sanction the amount & support us.

Office Note: The budget details are as under:

19 Considered the proposal regarding conduct of workshop on “IOT Intelligence Unleashed: A Hands-on Machine Learning Workshop” submitted by HOD-CSE Dept.

Preamble: HOD-CSE submitted proposal regarding conduct of workshop on “IOT Intelligence Unleashed : A Hands-on Machine Learning Workshop”.

i. Introduction:

- As machine learning and IoT technologies continue to evolve, there is a growing demand for professionals who can work at the intersection of these two fields. Students who gain expertise in both areas can enhance their career prospects and be well-prepared for jobs in emerging tech industries.
- Collaborating on projects that involve machine learning and IoT encourages students to develop interdisciplinary skills. They learn to bridge the gap between hardware and software, which is valuable in today's interconnected world.
- It helps in enhancing the confidence level of the students and motivates to participate in various competitions like Hackathons and Project Exhibitions.
- It encourages them to take up in-house projects related to IoT and Machine Learning.

ii. Objective:

- To Empower students with hands-on experience in the integration of machine learning and IoT,
- To foster interdisciplinary skills and preparing them for high-demand tech careers at the cutting edge of innovation

iii. Expected Outcomes:

- **Practical Proficiency:** Participants will gain practical proficiency in designing and implementing machine learning algorithms in IoT systems, enabling them to create intelligent IoT applications.
- **Interdisciplinary Skills:** Attendees will develop interdisciplinary skills by bridging the gap between hardware and software, enhancing their ability to work on diverse tech projects.
- **Problem-Solving Acumen:** Workshop participants will enhance their problem-solving acumen, applying data-driven solutions to real-world challenges in various domains such as healthcare, manufacturing, and smart cities.
- **Career Readiness:** Students will be better prepared for careers in emerging tech industries, with the potential to contribute to innovation, research, and entrepreneurship in the fields of machine learning and IoT.
- Establishment of good Industry Connect with KLS GIT.
