22 Considered the proposal regarding shifting of Network Rack due to water seepage submitted by HOD-Computer Center

Preamble: HOD-Computer Center submitted proposal regarding shifting of Network Rack due to water seepage. It is stated that, there is a rainwater seepage near Physics Department, 3rd floor, main building. Further due to electricity short, power supply was shut down to further sections including power supply to the 2 network racks. Hence Internet connectivity was disconnected to main building. The same has been brought to the notice of Dean (I & P). As per his recommendation, these 2 network racks need to be shifted from their present location, as these 2 network racks are right below the expansion joint of the main building and is vulnerable to water leakage.
