PROCEEDINGS

- 1 **Governing Council noted the Confirmation of Proceedings of GC meeting dated 24.09.2024**
-

- 2 **Reviewed the compliance report of GC Resolutions dated 27.08.2024**

Discussion & Decision:

The Compliance Report of GC Resolutions dated 27.08.2024 was reviewed in the meeting. The Chairman and Members of Governing Council have expressed their satisfaction for the same.

3 Considered the proposal regarding establishing a Satellite Office of DocketRun Tech. Pvt. Ltd. at KLS GIT received from Mr. Ajay Kabadi, CEO and Founder, DocketRun Tech. Pvt. Ltd.

Preamble: We have received an email dated 14.09.2024 from Mr. Ajay Kabadi, CEO and Founder, DocketRun Tech. Pvt. Ltd. regarding establishing a Satellite Office of DocketRun Tech. Pvt. Ltd. at KLS GIT.

A. About DocketRun Tech. Pvt. Ltd.: DocketRun Tech. Pvt. Ltd. is a Hubballi based company founded in 2019. They envision transforming the manufacturing industry through AIoT Solutions, enhancing productivity, safety, and operational efficiency, while ensuring high-quality standards.

They are specialized in AI, Machine Learning, and Industry 4.0 Technologies, providing solutions for large-scale industries such as JSW and TATA Steel. Since 2022, they have been actively engaged with the E & C Engg. Dept. of KLS GIT for conducting workshop, and expert talks. They have provided training, internships, projects, and job opportunities to more than 30 students of KLS GIT.

B. Scope of Satellite Office at KLS GIT:

- Training: Selected teaching staff and students
- Internship: Opportunities for selected students
- Job Opportunities: Based on DocketRun's requirement

C. Infrastructure requirements:

- Dedicated Office Space (Approx. 100 sq. ft.)
- Two Tables and four chairs
- Extension cords
- Adequate lighting, ventilation, and fans
- Internet connectivity (LAN or Wi-Fi)
- Access to common housekeeping services
- Shared meeting/collaboration space for interactions with clients, students, and faculty
- Access to laboratories for device testing, as needed.

GC is requested to guide us in this regard.

Discussion & Decision:

GC noted the details placed in the meeting.

After brief discussion, GC permits for establishing a satellite Office of M/s. DocketRun Tech. Pvt. Ltd. at KLS GIT.

HOD-E&C Engg. Dept. is to take necessary action in the matter.

Matter is referred to KLS BOM for its information.

4 To seek permission to roll out call for proposals for Seed Funding for R & D projects in various departments of KLS GIT for the year 2024-25 submitted by Dean IRDC

Preamble: Dear IRDC submitted proposal seeking permission to roll out a Call for Proposals (CFP) for seed funding to various researchers of our esteemed institute.

The primary objective of this initiative is to provide initial financial support to researchers for innovative and exploratory research projects. Seed funding will enable them to gather preliminary data, develop prototypes, and strengthen their proposals for larger external funding opportunities. This step will not only boost research activities but also enhance the institute's reputation in cutting-edge fields of study.

The CFP will outline key areas of interest, evaluation criteria, submission deadlines, and other relevant details to encourage broad participation across departments. We aim to ensure that the process is transparent, competitive, and aligns with the strategic research goals of the institute.

GC is requested to consider the proposal and accord permission for the same.

Discussion & Decision:

GC noted the details placed in the meeting.

After discussion, GC permits to roll out call for proposals for Seed Funding for R&D projects in various departments of KLS GIT for the year 2024-25.

Dean IRDC is to take necessary action in the matter.

Matter is referred to KLS BOM for its information.

5 To seek permission to roll out the advertisement for full time Doctoral Fellowship Program submitted by Dean IRDC

Preamble: Dean IRDC submitted proposal seeking permission to roll out the advertisement of our institute's Full-Time Ph.D. Fellowship Program for the upcoming academic session.

KLS GIT has always been at the forefront of providing quality education, and promoting research. As part of our initiative to attract motivated, and talented individuals, we have designed a Ph.D. Fellowship Program that will offer financial support to students pursuing their doctoral studies full-time. This program is aimed at fostering a vibrant research culture, and encouraging innovative thinking in various fields.

To ensure we reach a broad audience, and attract the best candidates, it is proposed to roll out the advertisement through various channels, including the institute's website, social media platforms and print media. The advertisement will contain all relevant details, including eligibility criteria, application process, deadlines, and fellowship benefits.

Last year, in response to our advertisement dated 05.11.2023 in Deccan Herald daily newspaper, 05 candidates had submitted application for "Jnana Ganga Doctoral Fellowship Scheme". Out of 05, only 02 were eligible. Further, vide GCR No. 03 dated 09.01.2024, Ms. Sapana Sushant Yakkundi was selected for "Jnana Ganga Doctoral Fellowship Scheme" for a period of three years. She is being paid ₹25,000/-pm as fellowship amount for pursuing full time Ph.D. at KLS GIT.

In this regard, GC is requested to accord approval to begin the promotion and advertising process for the same.

Discussion & Decision:

GC noted the details placed in the meeting.

After discussion, GC permits to roll out the advertisement for "Jnana Ganga Doctoral Fellowship Scheme" of KLS GIT.

Dean IRDC is to take necessary action in the matter.

Matter is referred to KLS BOM for its information.

- 21 **Considered the proposal regarding upgradation of Pelton Turbine Test Rig to computerized model submitted by HOD-Mechanical Engg. Dept. (Amount involved: ₹2,05,000/-)**

Preamble: HOD-Mechanical Engg. Dept. submitted proposal regarding upgradation of Pelton Turbine Test Rig in Fluid Machinery Lab. with computerized model. It is stated that, as a part of integrated subject, students are learning the theory as well as lab. At present students are learning conversion of fluid energy to mechanical energy only. In this regard, it is proposed to upgrade Pelton Turbine Test Rig to computerized model. The details of the expenses required for the same are as under:

Sl. No.	Details	Amount (₹)
1	Computer System	60,000
2	Electricity Generation Kit	15,000
3	Upgradation from Analog to Digital System	1,30,000
	Total	2,05,000

Hence, it is requested to consider the proposal and sanction ₹2,05,000/- towards the same.

Office Note: The budget details are as under:

1	Department	Mechanical Engg.
2	Budget Head	Lab. Equipment
3	Budget Allocated	₹1,27,00,000
4	Amount Utilized	₹ 21,945
5	Amount Committed	₹ 6,73,000

22 Discussed about NVIDIA GPU Server for KLS GIT

Preamble:

The matter of a nVidia GPU Server for KLS GIT was discussed in the KLS AGM on 28/Sep/2024.

The need for the same was expressed by a team from KLS GIT (including Principal (Dr. M. S. Patil), Dean R&D (Dr. Shwetha Goudar), HoD CSE (Dr. Sannakki), TPO, and Prof. Veena Kangralkar) to President of KLS, Shri. Anant Mandgi, via a presentation followed by a detailed Q&A session. The gist of the same was shared by KLS GIT Principal right after the meeting in which it was stated that KLS GIT needed to invest in a nVidia GPU Server to maintain and elevate KLS GIT's competitiveness relative to its competitors in the state and nationwide in matters of research, rankings, and student placements.

NVIDIA Note For AGM

All industrial sectors and jobs for Engineers from all branches, and Architecture, are being impacted by Artificial Intelligence (AI), and Machine Learning (ML), a sub-set of AI.

KLS GIT, being an Autonomous Institute, can retain its pedagogical superiority in North Karnataka by elevating syllabus and related hardware/software for its Four-Year Bachelor of Engineering, BE (AI/ML), program to the level of the best institutes in the state of Karnataka and India.

KLS GIT can also be unique by bringing AI exposure to all technological branches via electives/certifications in AI at KLS GIT, KLS VDIT, and KLS VPP. Furthermore, this expertise can be shared with all KLS institutions via skilling programs collaboratively designed by KLS GIT for various branches of learning such as Law, Commerce, and Management.

In a typical computing task, the CPU handles the general-purpose processing and decision-making tasks, while the GPU handles the parallelizable tasks. Central Processing Units (CPUs) and Graphics Processing Units (GPUs) are designed to work together, complementing each other's strengths. GPUs must therefore become a part of the Computing Ecology at KLS GIT to facilitate the ability of our staff/students/startups to participate in this exciting new frontier of computing. NVIDIA is the undisputed leader in GPUs, especially with its bundled at no extra cost CUDA software and related libraries.

We therefore recommend consideration of investment in the NVIDIA GPU Server.

Thereafter, representatives from Global Infoventures Pvt. Ltd., a nVidia Channel Partner, presented the features of the nVidia GPU server to the body and had a detailed discussion that was led by KLS President, Shri. Anant Mandgi. These representatives from GI Ventures were:

- i. Mr. Abhishek Agarwal, CEO, GI Ventures Pvt. Ltd., NOIDA, UP
- ii. Mr. Sampath Kumar, Senior Consultant, New Age Technologies, GI Ventures Pvt. Ltd., NOIDA, UP

Further, during the discussion, it was brought out that:

- a. A quotation for the same was earlier shared with KLS GIT on 23.03.2024 for a total price of ₹ 4.57 Cr.
- b. Prices had increased by ₹ 15 Lakhs since then
- c. GI Ventures would not be passing along this increase to KLS GIT
- d. GI Ventures would stand by the quotation dated 23.03.2024

Discussion and Decision:

It was noted that:

- a. KLS GIT's new branch of Engineering in the field of Computer Science (Artificial Intelligence & Machine Learning) was going to begin shortly for the 2024-2025 cycle
- b. The AI/ML branch needed to be elevated via an upgradation in its syllabus and related hardware/software to the level of the best private colleges in Karnataka, NITs, and IITs.
- c. GPUs, since these were extraordinarily efficient at Parallel Processing, needed to be added to the computing infrastructure at KLS GIT that currently solely relied on CPUs that were good at serial processing of data.
- d. NVIDIA is a company that has driven innovation the area of GPU computing with its path-breaking chips,
- e. Having a CoE (Center of Excellence) with NVIDIA at its core would set apart KLS GIT as an institution on an all India scale.

About NVIDIA:

Founded in 1993, NVIDIA has become a leader in the Gaming, Professional Visualization, and Artificial Intelligence (AI) industries. NVIDIA's accelerated computing platform is at the heart of AI revaluation that we are witnessing today. With over 2M developers, 7,500+ start-ups, cutting-edge technology stack, partnerships with industry leaders and global research and academia collaborations, NVIDIA has built the largest AI ecosystem in the world. Furthermore, its CUDA software and related libraries have made these systems

key players in the AI/ML space with currently, no competitor, coming close to it in terms of breadth of applications, speed, and computational efficiency,

About NVIDIA GPU Server at KLS GIT:

The NVIDIA GPU Server at KLS GIT would cater to the needs of multiple stakeholders including Faculty, Researchers, Students, Start-ups and Industry.

Furthermore, all branches at KLS GIT, and all sister KLS institutions including Engineering, Commerce (BCom/BBA/BCA), and Management would benefit.

Institute	Scope of AI Benefit via Investment in nVidia GPU Server
KLS GIT	Computer Science (AI/ML) Branch becomes far more attractive All Circuit branches can be offered AI related courses All non-circuit branches too can be offered AI related courses tailored for each branch Architecture students/teachers can harness NVIDIA technology to speed up rendering process for drawings that can take days and hours. MBA students can utilize the same for data analytics MCA students can be offered electives.
KLS VDIT	Since NVIDIA, unlike Microsoft licenses, does not charge by node/location of usage. KLS VDIT students can also be offered electives.
KLS VPP	Even polytechnic students can be offered elective courses making VPP far more attractive to students.
KLS RLLC	AI and the task of legal research can be vastly improved with AI technology
KLS IMER	MBA students can utilize NVIDIA technology for data analytics
KLS GCC BCom/BBA/BCA	Vast amounts of data (stock prices / commodity prices / other data) can be analysed very quickly.

Following were deemed benefits of establishing of NVIDIA GPU Server at KLS GIT:

1. **Research Labs:** With technology being the deciding factor, the NVIDIA AI platform will help promote research in cutting-edge technologies. NVIDIA Team would help in identifying minimum two industry standard problem statements on latest trends in Computer Vision, Agriculture, Healthcare, and Cyber security. Mentor the faculty/researchers over 3 to 6 months to develop the research projects and intern build the required competencies to take up consulting projects in the AI domain.
2. **Skill Development:** Prepare students/faculty to upgrade skills that are required to meet increasing computing challenges. NVIDIA will assist in incorporating courses/electives of New York University, University of Florida etc. in our curriculum. Faculty members through DLI get a chance to float free/paid NVIDIA certifications.
3. **Industry Partnerships:** Expertise in the AI domain will help to execute projects in collaboration with industries and government agencies. It will not only boost government funding, it will also provide opportunities to partner with different government organizations.
4. **Incubation Centres :** The facility will provide opportunities to collaborate with industries to carryout projects/consultancy in the areas of AI and Deep

Learning technologies. AI lab built using DGX systems will enable us to handle the exponential growth in data sets and compute requirements.

Estimated benefits for Startups wishing to benefit from NVIDIA GPU Server at KLS GIT indicate a rich set of possibilities for KLS GIT's startup ecology.

Startups	Scope
Healthcare	To accelerate medical imaging analysis, drug discovery and patient diagnosis leverage the computational power of H100 GPUs to process large volumes of medical data quickly and accurately, leading to improved patient outcomes and more efficient healthcare delivery.
Autonomous Vehicles and Transportation	Rely on NVIDIA H100 GPUs for processing real-time sensor data, enabling vehicle perception, navigation and decision-making. H100 GPUs provide the high-performance computing capabilities necessary for training and deploying complex AI models that power autonomous driving systems.

E-commerce and Retail	Utilize NVIDIA H100 GPUs for image recognition, natural language processing, and recommendation systems; analysing large datasets of customer behaviour; product information, personalize recommendations; optimize pricing strategies, and enhance the shopping experience for consumers.
Financial Technology (Fintech)	Leverage NVIDIA H100 GPUs for fraud detection, assessment, algorithmic trading, and customer service automation. Process vast amounts of financial data in real time, improving accuracy and efficiency in decision making processes.
Manufacturing and Industrial	Predictive maintenance, quality control, and process optimization. Identify potential issues before they occur to reduce downtime, and optimize operational efficiency.
Agriculture and Agrotech	Crop monitoring, yield prediction, and precision agriculture. By analysing satellite imagery, weather data, and soil conditions, one can optimize farming practices to increase crop yields, and reduce environmental impact.
Cybersecurity	Threat detection, anomaly detection, and network security analytics. By processing large volumes of network traffic data and identifying patterns indicative of cyber threats, enhance cybersecurity defences and protect against advanced cyber-attacks.
Energy and Sustainability	Energy optimization, predictive maintenance of renewable energy systems, and environmental monitoring. Analysing data from IoT sensors and smart meters to optimize energy usage, reduce costs, and minimize environmental impact.
Students/Teachers	Unique internship (for students); & research/postgraduate opportunities (for teachers)
