27 Discussed about the status of Borewells at newly procured land besides KLS GIT submitted by Dean Infra. & Planning

Preamble: Following are the points on the status of Borewells at newly procured land besides GIT

- i. We had installed 2 borewells at newly procured land besides KLS GIT in May 2024. Both the borewells were yielding good amount of water for initial 2 months.
- ii. Then from July 2024, during the rainy season, 1 borewell got choked up/blocked. Due to site conditions, we couldn't attend the issue that time.
- iii. We inspected the blocked borewell through camera on 11.01.2025, as per inspection we found that motor was jammed due to collapse of soil, then we got the borewell flushed on 13.01.2025. Post flushing, the yield was not satisfactory.
- iv. Second attempt of inspection by camera was done on 25.02.2025. Again, it was found that the motor was jammed.
- v. We consulted 2-3 experts, they have suggested to go for new borewell instead of flushing and installing another layer of PVC casing which will cost around ₹1 Lakh which is also not guaranteed solution.
- vi. The approximate cost of installing a new borewell (300 ft) and plumbing connection is around ₹2.5 lakh. This excludes the cost of motor and accessories which we already have.

Office Note: The budget details are as under:

1	Department	KLS GIT
