8 **Considered the proposal regarding conversion of B.Sc. (Honors) from Non-Autonomous status to Autonomous status submitted by HOD-Chemistry Dept.**

Preamble: HOD-Chemistry Dept. submitted proposal regarding conversion of B.Sc. (Honors) from Non-Autonomous status to Autonomous status. It is stated that, the VTU-affiliated B.Sc. (Hons) program introduced at KLS GIT in 2021 has been running successfully for the past four academic years. Currently, students are enrolled across the 1st, 3rd, 5th and 7th semesters, demonstrating the program's consistent growth and popularity.

It is noteworthy that a majority of our students have opted for Chemistry as their major, with a significant number choosing Mathematics. The academic response and feedback from students and faculty have been overwhelmingly positive, highlighting the need for enhanced academic flexibility, curriculum innovation, and research opportunities.

In view of this and to further strengthen the program's quality and autonomy in academic decision-making, it is proposed to transition the B.Sc. (Hons) program from affiliated status to an autonomous structure under the purview of the institute. This shift will allow us to better tailor the curriculum to meet industry standards, adopt innovative teaching-learning methodologies, and introduce value-added courses in line with NEP-2020 guidelines.

Hence, GC is requested to accord approval to initiate and run the autonomous B.Sc. (Hons) program at KLSGIT starting from the upcoming academic year.
