6 Discussed about the variation in intake of UG programs for academic year 2024-25

Preamble:

Part A: Approval Process Handbook (APH) for the year 2024-27

Dean Academics – Statutory Matters submitted proposal regarding variation in intake of UG programs.

- It is stated that, the **Approval Process Handbook (APH)** for the year 2024-27 has been released by AICTE on 6th December 2023 followed by Online Doubt-clearance Session's region wise from 12th to 15th Dec 2023.
- As per this APH (Chapter 2, Article 2.6: Increase of Intake / Additional Courses), **AICTE proposes to remove the upper limit on intake allowed for the Courses / Programs offered by existing institutions subject to** the fulfillment of infrastructure availability, its readiness and filled faculty position.
- Before grant of approval to the increase in intake sought by the institution, the council shall ascertain the infrastructure and faculty availability through an Expert Visiting Committee (EVC).
- In this regard, our institute can plan for the following courses for Increase of Intake:

Sl. No.	Program	Type	Existing Intake	Proposed Intake	Remarks
1.	Computer Science & Engineering (CSE)	Increase in Intake	180	240	60 Increase in Intake

Part B: Timeline to apply for increase in intake/starting of new branch:

i.	APH Declaration	06.12.2023
ii.	GC approval	19.12.2023
iii.	BOM Approval	30.12.2023
iv.	Application to VTU for NoC	01.01.2024
v.	Our target to submit application to AICTE	25.01.2024
vi.	Last date to submit application	30.01.2024

Part C: Alternative to Increasing Intake &/or Starting New Branches

- Supplement all branches, including CSE, in the field of emerging areas such as AI & ML, Data Science, Cyber Security, by initiating a meaningful cluster of Certification Courses.
- A Faculty needs to be nominated to exclusively manage and coordinate certification courses at KLS GIT. This was deemed necessary for competitive reasons as well as strengthening non-circuit branches such as Mechanical, Civil, Aeronautical, etc.

Minutes of the meeting of the Governing Council of KLS GIT (Engg. Section)
Held on Tuesday, December 19, 2023, at 04.00 P.M. in Governing Council Room of KLS
GIT

Discussion & Decision:

GC noted the details placed in the meeting.

GC also noted/discussed the following:

- The Aeronautical Branch Engineering Branch was initiated in 2015. During the 2023-2024 Admission Cycle admissions were at 100% for the first time since its inception. Significant Staff recruitment/retention issues for this branch were noted.
- The intake in the ISE Branch was increased from 60 to 120 during the 2023 – 2024 cycle.
- Concentration of Intake in like Branches

		Approved
	Branch	In Take
1	Mechanical (ME)	120
2	Civil (CV)	120
4	Aeronautical (AE)	60
3	Electrical (E&E)	60
5	Computer Sc. (CSE)	180
6	Information Sc. (ISE)	120
7	Electronics (E&C)	180
Total KLS GIT (Engg. Only)		840

- KLS GIT's concentration of intake in circuit branches (CSE/ISE/E&C/E&E) of 540/840 or 64% was significant.
- Since many branch admission trends appear to have a cyclical trend, should the initiation of an increase in intake or start of a new branch be accompanied by an equivalent reduction in similar branches' intake as a risk mitigation measure.

After detailed discussion:

- a. GC recommends to KLS BOM to accord approval for starting of new under graduate Engg. & Technology program "Computer Science and Engineering (Artificial Intelligence and Machine Learning) with an intake of 60 from the academic year 2024-25.
- b. GC also resolved to request KLS BOM for permission to recruit one additional teaching staff at the level of Assistant Professor to exclusively initiate/manage/coordinate Certification Programs for students/industry at KLS GIT.
