PROCEEDINGS

- 1 **Governing Council noted the Confirmation of Proceedings of GC meeting dated 30.01.2024**
-

- 2 **Reviewed the compliance report of GC Resolutions dated 09.01.2024**

Discussion & Decision:

The Compliance Report of GC Resolutions dated 09.01.2024 was reviewed in the meeting. The Chairman and Members of Governing Council have expressed their satisfaction for the same.

3 Considered the proposal regarding advancing the 3i Ecosystem Collaboration submitted by Mr. Neelesh Chougule, Chairman and Managing Director, Creintors Group of Companies, Belagavi

Preamble: We have received proposal from Mr. Neelesh Chougule, Chairman and Managing Director, Creintors Group of Companies, Belagavi regarding advancing the 3i Ecosystem Collaboration.

The gist of the proposal is as under:

Overview of 3i Ecosystem: The 3i Ecosystem, symbolizing the fusion of 'Industry inside Institute and Institute inside the Industry,' has evolved into a flourishing collaboration between the Gogte Institute of Technology and Creintors Group of Companies. This partnership has successfully engaged students and faculty from various engineering departments, MBA and MCA. Creintors have introduced a range of open and professional electives from the 5th semester, offering a comprehensive curriculum and hands-on learning experiences. By seamlessly integrating academia with industry practices, this innovative platform consistently cultivates forward-thinking professionals equipped to tackle real-world challenges, ensuring their readiness to drive impactful change across diverse sectors.

Creation of a Dedicated Panel: Building upon the success of the initial 3i Ecosystem, the Principal of KLS GIT College, Dr. M. S. Patil, has been a strong advocate for advancing this collaboration as suggested by Creintors. Recognizing the transformative impact on students and the dynamic engagement space for faculties, GIT College and Creintors are proposing the creation of a specialized panel. This panel, consisting of interested faculty members and aligned students, will undergo orientation and training conducted by Creintors.

Multidisciplinary Approach and Industry Integration: The proposed panel aligns with the ambitious five-point agenda presented by Mr. Neelesh, CMD of Creintors. This includes

- a) A multidisciplinary approach for integrated innovations
- b) Creating an industry-ready student platform.
- c) Establishing an industry engagement platform for faculties.
- d) Ensuring maximum job opportunities for students.
- e) Nurturing entrepreneurship and leadership skills.

Both Creintors and KLS GIT have finalized a panel at their respective ends. This team, alongside the students from KLS GIT, will actively contribute to the successful execution of the seven major projects undertaken by Creintors. Recently a two-day Orientation program for the panel members for KLS GIT was held at the Creintors Office to discuss the details and chalk out the plan of action.

Such a unique and innovative approach is sure to be accompanied by a lot of queries and concerns. I have tried my best to clarify them beforehand as mentioned below:

List of Shortlisted Companies:

The shortlisted companies, chosen with careful consideration for project scale, multidisciplinary approach, and exposure to different segments, are as follows:

- a. Sundaram Fasteners
- b. Raymond Suiting
- c. YG1 Korea and India
- d. Yokohama Tyres
- e. KMF Belgaum
- f. L&T Refineries Jodhpur
- g. Bright Brothers

Apart from these, Creintors will simultaneously pursue new innovative internal projects involving both KLS GIT and Creintors.

Nature/Scope of the Assignment:

Creintors, known for delivering innovation from concept to commissioning, will expose faculties and students to:

- Understanding customer requirements
- Conceptualizing various ideas and finalizing the optimum one
- Creating presentations to convince customers
- Detailed engineering considering manufacturing
- Witnessing manufacturing and testing with quality measures at each step.

Presently, the scope is limited to the mentioned aspects, excluding installation and commissioning due to travel constraints.

Benefits for Faculty and Students:

The scope outlined above inherently provides benefits in terms of knowledge, practical exposure to live projects, project planning and execution, and a corporate network beyond Belagavi.

Involvement of Our Team in Mentoring/Coordination:

We have assembled a team of 13 individuals along with a dedicated coordinator. A detailed list of our team and the corresponding KLS GIT team is attached for your reference.

Duration of Association as a Pilot Project:

The pilot project is envisioned for at least three semesters, allowing one batch to complete the initiative. Our successful track record of delivering automation courses for over three years underscores our commitment to such endeavors.

Schedule of Faculty and Students at Creintors:

Minutes of the meeting of the Governing Council of KLS GIT (Engg. Section)
Held on Tuesday, February 06, 2024, at 04.00 P.M. in Governing Council Room of KLS GIT

A two-day faculty orientation program has been completed. Tentatively, a minimum of 6 hours per week of faculty and student engagement is anticipated, primarily on Saturdays and Fridays. A detailed timetable will be formulated as we progress. The MOM of this meeting has been attached for your reference.

Role, Responsibilities, and Duration of Continuously Associated Faculty:
For this initial phase, we propose a minimum of three months for one faculty dedicated to this initiative, although one semester is considered ideal.

Financial Matters:

No commercial transactions between the organizations, faculties, or students are expected. This initiative operates solely in the self-interest of both KLS GIT and Creintors.

This collaborative effort symbolizes a crucial shift in education, showcasing the evolution of academic institutions and industry collaboration. The proposed panel and continued activities aim to bridge the gap between traditional academia and industry needs, fostering adaptability, innovation, and forward-thinking among our students.

Discussion & Decision:

Mr. Niles Chougule, Chairman and Managing Director, Creintors Group of Companies, Belagavi attended the meeting and explained the concept.

GC appreciated the collaboration and its roadmap.

Prof. Balwant Patil, Asst. Professor, E & E Engg. Dept. will be KLS GIT SPOC.

Matter is referred to KLS BOM for its information.

4 Considered the proposal regarding communication skills enhancement for 4th semester for better results in campus placements submitted by Training & Placement Officer

Preamble: In order to improve the skilling of the students who are weak in communication skills, and that they can be trained on the same during 4th semester, Bizotic company has submitted a detailed proposal after discussion with the Placement Team. Bizotic is our existing vendor for Aptitude Training during the pre-final year for B.E., MCA, and MBA students.

Discussion & Decision:

GC had detailed discussion with Training and Placement Officer. GC has directed TPO to resubmit the proposal with following queries raised during the meeting:

- i) Financial model for running the program
- ii) Duration of the program
- iii) Proposals from other vendors
- iv) Whether course should be run only for select students

Matter is referred to KLS BOM for its information.

11 Considered the proposal regarding purchase of Induction Heating Set-up in place of Furnace accessories and consumables from SEED amount granted submitted by HOD-Mechanical Engg. Dept.

Preamble: As per BOM Res. 07 dated 01.07.2023 states as:

Considered GC Resolution No. 3a dated 13.06.2023 of KLS GIT (Engg. Section), Belagavi recommending to sanction ₹10,00,000/- towards SEED money for carrying out Research and upgrading Microwave Materials Processing Laboratory. During the meeting, it is brought out that, the department of Mechanical Engg. is constantly striving at the Institute to conduct research that matches World standards. With limited resources, World-class research papers and patents are produced in a few years, supporting the accreditation and ranking efforts of KLS GIT. Further, in order to accelerate the efforts and enhance the outcome, the department need to upgrade the result-delivering research laboratory (Microwave Materials Processing Lab). It houses 6 Ph.D. students (2 full time and 4 part time research scholars) apart from undergraduate students. The new processing and testing setups along with consumables need financial support to realize it. There is a provision in the Institutes R & D policy to allocate SEED money (up-to ₹ 10 Lakhs) for such initiatives.

Hence, Governing Council has recommended the proposal to BOM with a request to sanction an amount of ₹10,00,000/- towards seed money for carrying out research and upgrading Microwave Materials Processing Laboratory. Further it is reported that there is a budgetary provision to meet this expenditure. The phase wise up-gradation plan is as under:

Sl. No.	Phases (half Yearly)	Equipment and Consumables	Estimated Expenditure in Lakhs
I	Year 1 – First Half	Cryogenic Ball mill and Tenso-meter setup with consumables	₹ 7 Lakhs
II	Year 1- Second half	Furnace accessories and consumables	₹ 1.5 Lakhs
III	Year 2 – Third Half	Furnace accessories and consumables	₹ 1.5 Lakhs
		Total	₹ 10 Lakhs

After discussion, it is hereby resolved to accord approval in principle for carrying out Research and upgrading Microwave Materials Processing Laboratory and sanctioned ₹10.00 Lakhs towards the same. Further, Governing Council, KLS GIT is authorized to call for quotations, negotiated with the agencies and send a detail report to BOM for further consideration.

Now HoD Mechanical has submitted as under:

- As per approval, the major test equipment amounting to ₹7,00,000/- (Sl. No.I) is on the verge of getting delivered this month.
- The remaining money (Sl. Nos II+III) was to be used for Furnace accessories and consumables in batches of ₹1,50,000/- each making up to a total of ₹3,00,000/-.
- As the work is evolving, there is a need of portable Induction Heating set-up for the upcoming major task. Therefore, it is requested to grant permission to procure portable Induction Heating Setup which fits approximately within
