7 Discussed about NVIDIA – CoE for Artificial Intelligence (AI)

Preamble:

Especially since KLS GIT is establishing a branch of Engineering in the field of Computer Science (Artificial Intelligence & Machine Learning) in the 2024-2025 cycle, and AI/Cybersecurity have become key topics of study as part of the modern economy, and NVIDIA is a company that has driven innovation in this arena with its pathbreaking chips, it was felt that having a CoE (Center of Excellence) with NVIDIA at its core would set apart KLS GIT as an institution on an all India scale.

About NVIDIA:

NVIDIA is first-ever chipmaker to surpass the \$2 Trillion mark in market capitalization recently. Founded in 1993, NVIDIA has become a leader in the Gaming, Professional Visualization, and Artificial Intelligence (AI) industries. NVIDIA's accelerated computing platform is at the heart of AI revaluation that we are witnessing today. With over 2M developers, 7,500+ start-ups, cutting-edge technology stack, partnerships with industry leaders and global research and academia collaborations, NVIDIA has built the largest AI ecosystem in the world.

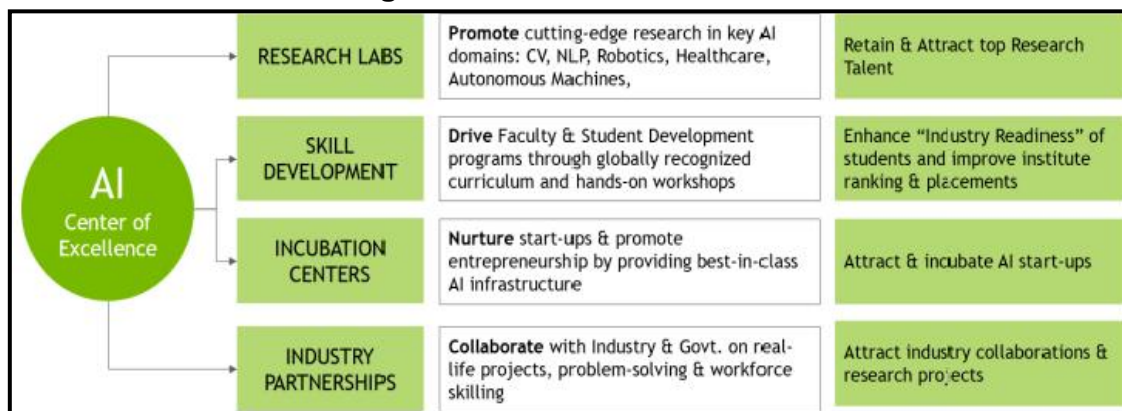

About NVIDIA AI Centre of Excellence:

Building AI skills and promotion AI research is an urgent need for India today. The NVIDIA AI Centre of Excellence COE at KLS GIT will cater to the needs of multiple stakeholders including Faculty, Researchers, Students, Start-ups and Industry.

Existing NVIDIA COE's using NVIDIA DGX Servers:

• IISC Bengaluru • IIT Bombay • IIT Hyderabad • IIT Roorkee • IIT Guwahati • IIT Jodhpur • IIT Goa • NIT Puducherry • NIT Calicut • Maulana Azad NIT, Bhopal • Central Electronics Engg. Research Institute, Pune • Chandigarh University • IIT Dharwad • NITK, Surathkal • BMS, Bengaluru (B. S. Narayan Centre of Excellence in AI and ML) • Dayananda Sagar University (NVIDIA - Boston Innovation Centre) • KLE Tech University, (Samsung AI, ML and & Data Engineering Centre) • RVCE, Bengaluru	• Lovely Professional University • Indira Gandhi Delhi Technical University For Women • SRM University • VIT University, Vellore • AP Shah Institute of Technology, Mumbai • Symbiosis Institute of Technology, Pune (DGX WS) • Yeshwantrao Chavan College of Engineering, Nagpur • Infosys Applied AI cloud • NetApp AI Centre of Excellence • Sify Technologies Limited • Bennett University (The Times Group) • German Research Centre for AI • New York University Centre for CV • University of Florida for NLP • Monash University for MIP

Benefits of establishing NVIDIA AI CoE:

Following are the key benefits of establishing of AI CoE:

1. **Research Labs:** With technology being the deciding factor, the NVIDIA AI platform will help promote research in cutting-edge technologies. NVIDIA Team would help in identifying minimum two industry standard problem statements on latest trends in Computer Vision, Agriculture, Healthcare, and Cyber security. Mentor the faculty/researchers over 3 to 6 months to develop the research projects and intern build the required competencies to take up consulting projects in the AI domain.
2. **Skill Development:** Prepare students/faculty to upgrade skills that are required to meet increasing computing challenges. Through AI CoE NVIDIA will assist in incorporating courses/electives of New York University, University of Florida etc. in our curriculum. Faculty members through DLI get a chance to float free/paid NVIDIA certifications.
3. **Incubation Centres :** The facility will provide opportunities to collaborate with industries to carryout projects/consultancy in the areas of AI and Deep Learning technologies. AI lab built using DGX systems will enable us to handle the exponential growth in data sets and compute requirements.
4. **Industry Partnerships:** Expertise in the AI domain will help to execute projects in collaboration with industries and government agencies. The AI CoE will not only boost government funding, it will also provide opportunities to partner with different government organizations.

Potential Revenue Generation Opportunities from NVIDIA AT COE:

1. **AI Certifications:** Design and provide advanced certifications on cutting-edge technologies at a reasonable price to Students/Faculty/Industry Professionals (A basic 8 Hour NVIDIA Certificate on Deep Learning would cost 90\$).
2. **AI workshops:** Lack of resources to train on NVIDIA AI technologies and Infrastructure management provides tremendous opportunities to organize paid workshops for NVIDIA partnering organization/other academic institutions (NVIDIA GTC on demand workshop for non-academician costs 500\$ per seat).

Minutes of the meeting of the Governing Council of KLS GIT (Engg. Section)
Held on Tuesday, March 26, 2024, at 04.00 P.M. in Governing Council Room of KLS GIT

3. **Renting out AI GPU's** : Renting out the GPU's from AI Servers for Non GITians at hourly basis (IISc, Bengaluru charge industries ₹ 150 per GPU hour for NVIDIA DGX Server).
4. **Consulting Opportunities**: There are tremendous consulting opportunities through the NVIDIA Partner Network (NPN) in the areas of Automotive, Agriculture, Transportation, Financial Services, Healthcare, Life Sciences, Industries and Smart Cities etc.

Roadmap to establish NVIDIA Centre of Excellence at KLS GIT:

Institute Responsibilities & Deliverables	NVIDIA & NVIDIA's Authorized Partners Deliverables	Action Needed	Timeline
Infrastructure : Invest in the required AI infrastructure and provide the required space and facility to install the same.	a. Extend special considerations (Pricing) for Server and GPU Cards b. Implementation support to set-up the needed infrastructure to run the AI LAB	Quotation Received from Netcon, Coimbatore recognized NVIDIA Partner Network (NPN) and working on the proposal. IQAC room identified to set up the NVIDIA AI Lab.	Server delivery will require 8 to 10 weeks after placing the order. 2 weeks for server installation
Faculty Coordinator : Assign Faculty/Person-In-Charge for the AI Lab to own, manage and facilitate the use of the AI Lab by multiple stakeholders	Instructor lead DLI trainings for the AI LAB coordinator and system administrator on NVIDIA stack and initial handholding on running the LAB	Dr Swetha Goudar (Professor, MCA) and Dr Uttam Deshpande (Assoc. Professor, EOE) identified as SPoCs. Dr Manjula Ramannavar (Assoc. Professor, CSE) identified as the faculty coordinator Dr Swetha and Dr Uttam will be responsible in setting up the Lab, Build the team, Organize/Conduct trainings, execute industry consulting /research projects and promote startups. Dr Manjula will facilitate framing of AI curriculum/certificate courses.	Two System Admins will be identified after the proposal gets accepted by the GC.
Academics : Build Academic Calendar with courses, electives and job-oriented trainings	Support & guidance on structuring AI curriculum and content for the same based on NVIDIA DLI Teaching Kits.	Dr Manjula will Coordinate with Dean Academics and Department IQAC team to identify and include NVIDIA courses in respective department curriculum. Coordinate to float NVIDIA certificates to our students through NVIDIA DLI Teaching platform.	5-Day hands on workshop will be conducted after the server installation. NVIDIA NPN Partner will depute one Engineer for 3 Months at our institute to provide complete support
Research : Promote AI research amongst its students & faculties leveraging the AI LAB set-up	Facilitate DLI courses for the researchers based on their area of focus to enable them on NVIDIA's AI software stack, SDKs and tools. Promote eligible/qualified research projects in platforms such as GTC	Dr Swetha and Dr Uttam will coordinate with department research coordinators to promote research in the cutting-edge technologies. Form AI student club to organize hackathons, competitions etc... Promote research projects and attract funding through the AI lab facility. Attract startups/industries to collaborate and bring consulting projects. Coordinate to organize paid NVIDIA courses to industry professionals and outside students. Promote institution branding through NVIDIA CoE.	After the server installation, training programs will be planned and executed.

19 Considered the proposal regarding appointment of Graphic Designer on Contractual Basis submitted by Publicity Coordinator

Preamble: It is proposed to appoint of a graphic designer on a contractual basis for KLS GIT. As you are aware, we frequently require professional designs for digital flyers, digital posters, and newspaper advertisements to effectively communicate with public, alumni, and parent community, and stakeholders.

After careful consideration of our current approach to design services, it has become evident that there are inefficiencies and limitations in relying solely on external agencies. The response time from these agencies has been consistently poor, leading to delays in project timelines. Additionally, the process of incorporating corrections and revisions has proved to be time-consuming, often requiring multiple reminders and resulting in further delays.

To address these challenges and streamline our design process, it is proposed to bring a graphic designer onboard on a contractual basis. By having an in-house designer, we can ensure easy accessibility for design needs, thereby expediting the process, and minimizing delays. The advantages of this approach include:

- **Improved Response Time:** With an in-house designer, we can significantly reduce the time it takes to initiate and complete design projects, leading to quicker turnaround times.
- **Efficient Corrections and Revisions:** Having direct access to the designer will facilitate faster incorporation of corrections and revisions, eliminating the need for extensive follow-ups and reminders.
- **Consistent Branding:** An in-house designer will be well-versed in our brand guidelines and preferences, ensuring consistency across all design materials.
- **Proposed Salary:** ₹15,000/-pm to ₹20,000/- pm.
- Presently, we are getting only institute level / high importance event flyers designed from M/s. Impression, Belagavi at the cost of ₹64,000/- for 100 designing works for one year.

Hence, it is requested to accord approval to proceed with this proposal and initiate the process of selecting a suitable candidate.

Discussion & Decision:

GC noted the details placed in the meeting.

GC approves the proposal in principle. As a pilot, it is suggested to appoint for a period of 03 months on contractual basis. Publicity Coordinator is to take necessary action in the matter.

Matter is referred to KLS BOM for its consideration and approval.

21 Considered the proposal regarding remuneration for expert talks submitted by Dean IRDC

Preamble: In recent times, our institution has been fortunate to host distinguished resource persons for talks and seminars, whose expertise and insights have greatly enriched the intellectual atmosphere of our campus. These individuals, through their valuable contributions, have not only enlightened our students and faculty members but have also brought acclaim to our institution.

However, it has come to our attention that the remuneration/ honorarium provided to these esteemed resource persons may not be commensurate with the calibre and profile they bring to our events. In recognition of their expertise, experience, and the valuable time they dedicate to sharing their knowledge with our institute, it is requested for an upgraded honorarium scheme.

As per the GC Resolution 17 dated 01.02.2022 and BOM Resolution No. 33 dated 11.02.2022, remuneration/ honorarium was fixed to ₹1,000INR per hour. Now, it is proposed for the remuneration of 1,000-2,500 INR per hour range for approval. Based on the resource persons profile the remuneration/ honorarium could be fixed during the process of approval. This can be implemented from the next FY 2024-25.

The proposed upgraded honorarium/remuneration would be determined based on the profile and expertise of the resource person, as assessed by the Dean, and Principal during the approval process. Offering a competitive honorarium will not only demonstrate our institution's appreciation for the contributions of these individuals but will also help us attract more distinguished speakers in the future, further enhancing the reputation of our academic programs.

Discussion & Decision:

GC noted the details placed in the meeting.

GC accepts the proposal.

Matter is referred to KLS BOM for its information.
