5 Discussed about ETS Center at KLS GIT

Preamble: Educational Testing Service (ETS) administers the GRE (Graduate Record Examinations) and TOEFL (Test of English as a Foreign Language) exams, which are critical for students seeking admission to graduate programs and English-speaking institutions worldwide. The increasing number of applicants necessitates the establishment of additional testing Centres to ensure accessibility and convenience for test-takers.

The establishment of a new ETS testing center for GRE and TOEFL exams at KLS Gogte Institute of Technology, Belagavi, Karnataka presents a promising opportunity to meet the growing demand for standardized testing. By strategically investing in the necessary infrastructure, and implementing robust operational processes, the center aims to provide a reliable and convenient service to test-takers, contributing to the broader educational landscape.

ETS centre setup would offer a host of intangible benefits to KLS GIT. Having an ETS test centre at KLS GIT would improve the brand value of KLS GIT further. It adds weight to the institutions credibility and is especially helpful at the time of realizing collaboration ventures with universities abroad. KLS GIT would be able to cater to the needs of test takers across South Maharashtra, Goa and North Karnataka thereby spreading great word of mouth.

The detailed report in this regard would be placed in the meeting.

- 18 **Considered the proposal regarding offering B.Sc. (Honors) program with Computer Science as one of the minor subject submitted by HOD-Chemistry Dept.**

Preamble: HOD-Chemistry submitted note regarding offering B.Sc. (Honors) program with Computer Science as one of the minor subject. It is stated that, we have been successfully running the VTU affiliated B.Sc. (Honors) program at KLSGIT since 2021. Currently, students are enrolled across the 1st, 3rd, 5th, and 7th semesters. A majority of the students have chosen Chemistry as their major, while a smaller group has opted for Mathematics.

To align with societal demand and enhance both admission rates and placement opportunities, we propose introducing Computer Science as a minor subject alongside the existing majors in Chemistry, Physics, and Mathematics. This addition will provide students with interdisciplinary skills and broaden their career prospects while allowing them to pursue higher studies in their chosen major subjects. By adding this subject, we may require one faculty member with Computer Science background to handle the classes and labs.

Hence, we seek your permission to submit a request to VTU, Belagavi for Computer Science minor subject in B.Sc. (Hons) program.
